Major Duties:

The incumbent performs technical scientific duties in the field and laboratory setting assisting scientist(s) in one or more phases of research centered on developing new production and post-harvest systems that improve the efficiency and profitability of warm water aquaculture. The incumbent: operates and maintains an analytical water quality laboratory; participates in the planning and sequencing of projects; collects water samples; makes water quality determinations; maintains detailed records and databases (both written and computer based); operates and maintains highly specialized complex equipment (including equipment for flow injection analysis (FIA) and ion chromatography (IC), dataloggers, etc.); prepares, maintains, inventories, and disposes of chemicals; selects appropriate methods and procedures; quantitatively and qualitatively compiles, analyzes, interprets and documents findings through charts, graphs, and reports. When conducting work in the field (collecting water samples, stocking/sampling/harvesting fish, etc.) the incumbent is subject to prevailing weather conditions, including long periods of hot sun, humidity, cold and inclement weather, and moderate physical effort may be required to lift samples weighing from 25 to 50 pounds.

Qualifications Required: Your education and experience will be evaluated against all qualification requirements (basic and any additional requirements) listed below.

Basic Requirements

GS-05: 1 year of specialized experience equivalent to the GS-04 OR Successful completion of a 4 year course of study leading to a bachelor's degree with major study in an appropriate field of biological science or that included at least 24 semester hours in any combination of courses such as biology, chemistry, statistics, entomology, animal husbandry, botany, physics, agriculture, or mathematics. At least 6 semester hours must have been directly related to the position.

GS-06: 1 year of specialized experience equivalent to the GS-05 OR 1/2 year of directly related graduate education.

GS-07: 1 year of specialized experience equivalent to the GS-06 OR 1 year of directly related graduate education.

If qualifying all or in part based on your education, please submit a copy of your college transcripts OR a list of college courses with credit hours, dates completed, and grades received. If this information is not provided, your education may not be appropriately evaluated and you may lose consideration for this position. If your qualifications are based in any part on education and you are selected for this position, you will have to provide an official copy of your academic transcripts prior to entering on duty.

Additional Requirements:

All applicants SHOULD indicate possession of:

1. A valid state driver's license.

Time-In-Grade Restrictions apply for all candidates considered under Merit Promotion/Alternative Merit Promotion.

Specialized Experience - experience which has equipped you with the following Knowledge, Skills and Abilities - 'KSAs' required to perform the duties of this position:

1. Knowledge of limnology and water quality.
2. Knowledge of the principles and methods of aquaculture.

3. Skill in the operation of a personal computer and software for research related data collection and analysis.
4. Ability to conduct and document water quality analyses.

In addition, for the GS-07 grade level, applicants must have:

5. Ability to conduct and document water quality analyses, including dissolved inorganic nitrogen and/or phosphorus.

Other Important Information

Benefits Package:

A Benefits Package is authorized for this position. Additional information about Federal benefits can be obtained at www.usajobs.opm.gov/ei61.htm.
